ADVICE TO COUNCIL: No. 96-3

Public Presentations to the Council Session

At the meeting of July 18, 1996, and in light of the fact that the number of those who wish to address the Council exceeds the number of maximum speakers considering the time available, JPAC suggests to Council that the speakers from the public during the afternoon of the Council Session on August 1st in Toronto should be chosen by the participants of this meeting according to a fair and equitable process which includes, for example, a balanced number of speakers from each Party. The roundtable format is recommended for this process selection.
