### Choosing a Grant Program

After clicking on the Apply link you will have the ability to choose a grant program to apply for. Each grant program will have a brief description of the grant or who qualifies for the grant. Read these descriptions thoroughly before applying.

- 1) Read through the grant program description to decide if you qualify to apply for the grant.
  - a. If the foundation has sent you an access code enter it in the Access Code box in the upper right corner and click "Enter Code." This will allow only the private grant program to appear.

## Applicant Tutorial

- 2) After the grant program appears, click it to start filling out the first form.
  - a. Grant Programs have the ability for multiple forms. Some grant programs can have the applicant submit 3 forms to the foundation before a decision is made. Each form will be filled out and submitted to the foundation. After it is deemed complete, the foundation will approve you to move on to the next form.

The screenshot shows the Foundant Technologies application interface. At the top left is the Foundant Technologies logo. The main header reads "Technology for Doing Good, Better." Below this is a navigation menu with "requests" (Dashboard, Apply) and "tools" (Fax to File). The main content area is titled "Application Page" and contains a "Please click on a link below to begin the application process." instruction. There are two input fields labeled "Access Code" and "Enter Code" at the top right. A callout bubble points to these fields with the text: "Enter the access code provided by the foundation to access restricted grants". Below the instruction is an information box: "Info: If you have been provided with an Access Code, you may enter it in the box at the top of the page." Underneath is a link for "Foundant Training Process" with a description: "Make sure you read the description so you know if you qualify to apply. It may also include important deadlines." A callout bubble points to this link with the text: "Click on the Process Name Link of the program you wish to apply for".

### Filling out the First Form

After agreeing to the applicant instructions you will be sent to the first form in the grant program. Enter all the applicable information then Save as Draft or Submit the form to the foundation.

- 1) Start filling out the questions on the form, paying close attention to the instructions and limitations on each question.
  - a. Certain types of questions have limitations set by the foundations. Text questions will have a character limit which only allows you to type or paste a certain amount of text in each question. Another limit will be on the file upload questions. This limit will be in Mega Bytes (MB). The size of file you are uploading must be under the amount of MB's allowed on the question.
- 2) Applicants can save as draft and come back to the form after any given time to complete it. The foundation will not check for completeness until the form is submitted.

The screenshot shows an application form interface with several callout boxes:
