

John Plaut

Summit, New Jersey

JPAC - Here is my comment and the comment of my NGO. Please transmit it to JPAC members and include it in the record of comments. If there is an opportunity to enlarge on my comments in public testimony, I would appreciate the opportunity to do so: Congratulations on your continued advocacy of continental environmental issues and the transparency of your mechanisms. If the CEC and JPAC wish to continue to be fully relevant they must include in their agenda (1) issues of climate change and (2) alternate sources of non-carbon based renewable and non-renewable energy, and resultant cooperation of the Parties on joint programs thereon. Jon Plaut Summit, New Jersey. President, Global Learning Inc. Former member of JPAC.
