REPORT BY CHAIR OF JPAC

The Chair of JPAC, Jacques Gérin, reported on the last session of the Committee (April 27-28) highlighting the progress made on the planning for the public consultation on the guidelines for citizen submissions and offering JPAC assistance in the planning for the public portion of the next regular session of Council. He observed that Council had not officially responded to three formal advices from JPAC and invited members to consider appropriate response mechanisms. He concluded by renewing the invitation to the Parties to attend JPAC sessions.

Members accepted a suggestion by Canada to coordinate, until further notice, the responses to official communications from JPAC.

Action: Canada

SUBMISSION GUIDELINES

Representatives of the GSC and of the Secretariat reported on the progress made on the preparation of the document to be released for public consultations. Members agreed on the urgency to finalize the document rapidly for an open, participatory and structured consultation process to be coordinated by JPAC.

Members concluded the discussion by:
• directing GSC to continue discussions so that a document is referred to JPAC by June 1 for public consultation;
• requesting JPAC to report to Council on the results of the consultation within 90 days after receipt of the document;
• recognizing the right of an individual government to submit to JPAC its views for any areas where no common understanding is reached;
• reaffirming the wish for an open and participatory consultation process; and by
• agreeing to finalize the guidelines soon after receipt of the consultation report.

Action: GSC / Chair of JPAC

INCOME TAXES AND HEADQUARTERS AGREEMENT

Members reported on the progress made to regularize the tax status of the employees of the Secretariat. Mexico and the United States committed to respond to the “reciprocity” condition asked by Canada. Canada and Mexico committed to responding to a United States questionnaire which is a prerequisite for
the preparation of a reimbursement agreement with the Secretariat. Until the matter is definitively resolved, Members agreed to maintain in place the interim measures outlined by the Executive Director in his note dated April 4, 1995.

Action: Canada / Mexico / United States / Executive Director

Given the responsibilities of provinces in matters such as taxation, health, education and vehicle registration, an agreement with the Government of Quebec is deemed to be the best instrument to officially recognize the privileges of the Commission, the Secretariat and its employees. Through the adoption of Resolution #95-4 (Annex “D”), members authorized the Executive Director to negotiate such an agreement.

Action: Executive Director

PARTY OBLIGATIONS UNDER AGREEMENT

Members briefly discussed how best to report on the actions they take pursuant to their obligations under the Agreement. They recognized the need to consider mechanisms to inform each other of such actions and noted the requirement to report on them in the Annual Report. As an initial measure Parties agreed to focus on the requirement of the Annual Report. Members deferred to the next session the discussion on mechanisms to inform each other.

Action: GSC / Secretariat

1995 WORK PROGRAM

The Executive Director reported on the substantive work being carried out by the Secretariat and the effort to focus the action, seek value added and avoid duplication. He referred to his note of April 25 which identifies projects that will generate short term results for North America and tangible products for the next regular session of Council. He also referred to other projects having a longer time frame. The Executive Director accepted the suggestion from the members to identify the program manager on each project brief.

Action: Executive Director

SPECIAL TOPICS

Members considered a number of potential special topics that could be given special attention at the next session of Council and which could be highlighted in the annual report. Members selected the following four priority topics and supporting projects (subject to further discussions) to be the object of a verbal or written report to Ministers at the next regular session of Council: “Habitat and Species Protection”; “Energy Efficiency and Climate Change”; “Environmental Information Highway”; and, “Reducing Risk to Human Health”.

SOFTWOOD LUMBER CONSULTATIONS PROPOSAL

After a brief discussion on the opportunity for the Commission to provide assistance to the Canada - United States consultation process on trade on softwood and related forestry issues, members concluded that action by the Commission was not necessary at this time.

CEC PARTICIPATION IN OECD AND OTHER INTERNATIONAL ORGANIZATIONS

Members discussed the opportunity for the CEC to participate or cooperate in selected activities of the OECD and other international organizations. It was concluded that, for the time being, the Secretariat should not seek permanent status to the OECD or other international organizations and that Parties, through their regular participation in international fora, should advise the Secretariat of emerging initiatives and opportunities. Members observed that the Executive Director has the authority to decide on the participation of the Secretariat to specific events and design a strategy for efficiently linking CEC work with global initiatives.

Action: Parties / Executive Director

CEC COUNTRY PUBLICATIONS

Based on a Canadian initiative, Members considered a proposal for the preparation of a publication designed to inform the distinct publics of Canada, Mexico and the United States on the Agreement and the Commission. Members agreed to the preparation by the Secretariat of a core information document that could be used by all three countries and which Parties could complement by a distinct document directed at their nationals.

Action: Secretariat

Members directed GSC and the Secretariat to implement the workplan as proposed with a view to have the report approved by Council at its regular session and published by year end.
