Category(s): COMMERCIAL - Salmon: Gill Net
Subject: FN0501-Salmon: Gillnet - Area C - 3, 4 & 5 - Poor Compliance

Recent information revealed an unacceptable, poor compliance with gill net license conditions. In particular, there was a failure to have an operating revival box for prohibited by-catch such as coho, chum and steelhead on several vessels. Fishermen are reminded that failure to adhere to their license conditions will result in enforcement action and future gill net opportunities will be dependent on compliance with licence conditions for the proper management and control of the fishery.
