6599	Bad smell in Standard Heights	6/14/2012	955 Seneca, Baton Rouge 70805	Smelled a strong smell and had to go inside	Odor,
6582	Gas smell from Exxon	6/15/2012	2768 Lupine Avenue, Baton Rouge, LA	<p>Friday june 15 my 14 yr old told me while i was at work fri he smelled gas bad at 2pm while he was inside.he couldnt go out because he was afraid of the smell. He tried to locate the news about the smell. He couldn't find any news on the leak. This is his second benzene exposure. the first leak when he was unborn caused him to be born at 5 months in April 1995. We still monitor for blood related cancers. Benzne is highly toxic and repeated exposures will be deadly to him. Benzene is outlawed and DEQ should not be a friend to business and should regulate and be held accountable by state and federal laws. the people must make sure the laws are upheld</p>	Odor, Health Effects,
