Re: Public comments on the Draft 2009 CEC Operational Plan

Date: 12 February 2009

As agreed during the JPAC meeting that was held in Puerto Vallarta, México, on 2-3 December 2008, and in reference to the recently concluded JPAC-led public consultation on the 2009 CEC Draft Operational Plan, I am pleased to provide you with a copy of the commentary received from the North American public for your consideration.

JPAC was gratified to see a significant expression of interest in the CEC from the public during the public comment period. Many perceptive and useful comments were received, which evidently reflect the support of the CEC activities that will take place throughout this year. I am also certain they will be of value to our organization as we continue with the deliberations on the 2010-2015 Strategic Plan.

We look forward to our continued dialogue.

Sincerely,
