Our team of experts reinforces Bombardier's leadership by proactively addressing the evolving sustainability needs of our customers and stakeholders within our **product strategy**.

We elevate the sustainability maturity of our products by embedding eco-design expertise and best practices across the entire product **innovation lifecycle**.

Committed to transparency, we communicate our efforts with integrity, grounded in **science-based** approaches.

Integrating sustainability, innovation, and product strategy
Integrando sostenibilidad, innovación y estrategia de producto
Intégrer la durabilité, l'innovation et la stratégie produit

A little more about me... | Un poco más sobre mí... | Un peu plus à propos de moi...

Immanuel Tablas,

Product Sustainability & Strategy Professional | sostenibilidad y estrategia de producto | durabilité et stratégie produit

Engineering Career Accelerated Program (ECAP)

Programa acelerado de carrera en ingeniería

Programme accéléré de carrière en ingénierie

Type: Rotational program for new graduates

Goal: Accelerate professional development and prepare future leaders in aerospace engineering.

At Bombardier, young talent isn't just welcomed – it's actively cultivated as a part of the company.

En Bombardier, el talento joven no solo es bienvenido – es activamente cultivado como parte de la empresa.

Chez Bombardier, les jeunes talents ne sont pas seulement accueillis – ils sont activement cultivés au sein de l'entreprise.
